## ABOUT

---

Information Systems student at Universitas Indonesia with a focus on bridging the gap between technology and business. Experienced in leading large-scale projects and managing complex stakeholder relationships in student-led organizations.

## EDUCATION

---

### Universitas Indonesia

*Jul 2024 - Present*

Bachelor of Computer Science, Information Systems, Faculty of Computer Science

- Grade: 3.87/4.00 (CGPA)
- Honors: Dana Abadi UI – Dato' Dr. Low Tuck Kwong & Purnomo Yusgiantoro Center Scholarship (Feb 2026 - Jun 2026); Fully Funded Short-Term Exchange at Universiti Malaya
- Highlighted Coursework: Enterprise System Design, Business Intelligence, Operating Systems, Computer Vision

## PROFESSIONAL EXPERIENCE

---

### IBM

Brand Technical Specialist Intern - AIOps & Observability

*Jun 2026 - Present*

- Deliver technical demonstrations and pitches of IBM Instana to prospective enterprise clients, translating observability capabilities across Kubernetes, virtual machines, and hybrid infrastructure into business value.
- Support technical scoping and advisory for enterprise Proof of Concepts (PoCs), defining target architectural topologies spanning containerized and VM-based workloads, and validating client technical resource requirements.
- Shadow implementation partners during IBM Instana deployment for a regional government client, gaining exposure to real-time application performance monitoring in production environments.

### Universitas Indonesia - Faculty of Computer Science

Teaching Assistant of Platform-Based Development

*Jun 2026 - Present*

- Design and grade labs and projects for a two-track, 400-student course covering web development (JavaScript, Django) and mobile development (Flutter).
- Evaluate students' implementation of REST API-driven web applications and their corresponding Flutter-based mobile clients, mirroring real-world full-stack development workflows.

Teaching Assistant of Operating Systems

*Jun 2026 - Present*

- Support a semester-long course for a cohort of 200 students, providing academic mentorship and pre-exam review sessions to reinforce core computing concepts.
- Deliver live coding demonstrations and grade C programming assignments, evaluating students' implementation of operating systems concepts such as virtualization, concurrency, and persistence.

Teaching Assistant of Programming Foundations

*Jul 2025 – Jun 2026*

- Facilitated first-year foundational programming courses, managing lab instruction and academic evaluation for over 400 students, including a specialized cohort of 40+ international students.
- Mentored students through foundational computational thinking and algorithm design with Python; object-oriented programming (OOP) principles and practical software implementation utilizing Java.

## ORGANIZATIONAL EXPERIENCE

---

### AIESEC in UI

Stakeholder Manager

*Feb 2026 – Present*

- Manage the stakeholder database and partnership documentation across organizational departments.
- Ensure compliance with partnership governance including LoAs, MoMs, and partner evaluations.

Business Development Team Member

*Oct 2024 – Jan 2026*

- Secured IDR 50M+ in financial and in-kind partnerships through outreach to 200+ companies.
- Delivered partnership pitches and sales meetings for AIESEC in UI with corporate stakeholders.

## **BETIS Fasilkom UI**

Project Officer

*Dec 2025 – Jul 2026*

- Led a 130+ member committee delivering Fasilkom UI's flagship free, intensive college-entrance-exam program for underprivileged high school and gap-year students.
- Oversaw mentorship, academic support, program execution, timelines, and stakeholder coordination to keep the program fully free and sustainable for 130+ students.

## **BEM Fasilkom UI**

Deputy of Public Relations

*Apr 2026 – Present*

- Direct strategic communications for the Student Executive Board, overseeing 8 core public relations programs and leading the "BEM Networking" initiative for company visits and external university comparative studies.

## **RISTEK Fasilkom UI**

Public Relations - Marketing and Communications

*Feb 2025 – Feb 2026*

- Produced social media content achieving 5,000–20,000 views per post
- Co-authored TechTonic, a bi-weekly tech article covering industry trends and ethical dilemmas in technology.

Marketing Manager of Datathon 2025

*May 2025 – Aug 2025*

- Developed and executed marketing strategy for Datathon 2025, resulting in 700+ registrants.

## **PROJECTS & COMPETITIONS**

---

### **TERRA: AI-Powered Post-Harvest Advisory Platform**

*2026 (Ongoing - National Round)*

#### **GEMASTIK XIX, Software Development Division**

[github.com/Terra-gemastik/TERRA-FE](https://github.com/Terra-gemastik/TERRA-FE) & [github.com/Terra-gemastik/TERRA-BE](https://github.com/Terra-gemastik/TERRA-BE)

- Co-developing a computer-vision platform (YOLO-integrated) built on a modular FastAPI backend (9 modules, 38 REST endpoints) and a type-safe React Native/Expo client, providing post-harvest advisory to help farmers determine the optimal market usage for damaged or substandard crops.
- Designing a "reverse e-commerce" marketplace with a rule-based recommendation engine covering all crop condition/severity combinations to match farmers with buyers based on specific crop grades.

### **Mantau: AI-Powered Elderly Fall-Detection SaaS Platform**

*2026 (Ongoing - National Round)*

#### **GEMASTIK XIX, ICT Business Development Division**

[github.com/AidamUI/mantau-prototype-mobile](https://github.com/AidamUI/mantau-prototype-mobile)

- Formulating a SaaS business model that connects existing household CCTV to an AI fall-detection engine, providing 100% passive monitoring and real-time emergency alerts without additional hardware.
- Developing a comprehensive business plan featuring TAM/SAM/SOM market sizing, 5-year financial projections, and competitive positioning validated through user interviews and Willingness-to-Pay analysis.

### **SkillPath: Labor Data Processing & Analysis**

*2025*

[Tableau Dashboard](#) & [github.com/AidamUI/Compfest-DSA-DataProcessing](https://github.com/AidamUI/Compfest-DSA-DataProcessing)

- Unified 35+ BPS provincial datasets into a national city-level database using Python and processed a database of 4,800+ JobStreet postings to extract specific skill requirements for a reskilling platform; built a Tableau dashboard visualizing regional skill gaps to power the platform's recommendation engine.

## **ADDITIONAL**

---

**Technical Skills:** Java, Python, JavaScript, Dart, Django, React.js, Node.js, Flutter, Springboot, SQL, PostgreSQL, PowerBI, PyTorch, Docker, Kubernetes, AWS, Terraform.

**Professional Skills:** Pitching, Negotiation, Public Speaking, Project Management, Problem Solving, Teamwork.

**Languages:** Native/Bilingual proficiency in English and Indonesian, Elementary proficiency in Arabic.

**Certifications:** Docker and Kubernetes: The Complete Course (Udemy), Full-Stack Web Development Bootcamp (Udemy), IBM Instana Intermediate (IBM), Data Science Academy (Compfest), UI/UX Foundations (Compfest).
